## OPTION A: IN STOCK

**Option A:** You purchase our standard, bottled, in stock products, without labels. We provide all information needed for your designer to complete your labels. **Continue on to view our in-stock products for Option A.**

# CERAMIC WATERLESS CAR WASH

This waterless car wash serves as a quick detailer and ceramic coating maintenance spray. It's infused with soaps and surfactants to quickly dissolve dirt on contact. As simple as spray on, rub in, and wipe off — this product allows you to wash your vehicle virtually anywhere, anytime. With SiO<sub>2</sub> and the latest in ceramic coating technology, this product gives your vehicle a hydrophobic effect that will repel water and dirt complete with water beading and sheeting effects.

Waterless Car Wash can be formulated in a wide variety of colors and scents.

Colors by availability:

## Options

- 8 oz with trigger sprayer
- 16 oz with trigger sprayer
- 1 gal. (also available as concentrate)
- 5 gal. (also available as concentrate)
- 55 gal. drum (concentrate only)

# FOAM CANNON SOAP

---

This is a premium, super-concentrated foam cannon and foaming car soap formulated with a unique blend of biodegradable soaps and surfactants. When activated with water, these surfactants create a deep-cleaning lather that lifts away dirt and grime with ease. The pH-balanced foaming action, combined with gloss enhancing properties, ensure proper lubrication when washing.

Foam Cannon Soap can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Options

- 8 oz with pump
- 16 oz with pump
- 1 gal.
- 5 gal.
- 55 gal. drum

# TIRE GEL

---

This is an easy-to-use, water-based polymer tire gel that creates a rich, glossy, and long-lasting shine. The wipe-on, no-sling formula enhances the appearance and longevity of rubber, plastic, and vinyl. Contains advanced UV blockers to help protect against the damaging effects of the sun.

Tire Gel can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Options

- 8 oz with pump
- 16 oz with pump
- 1 gal.
- 5 gal.
- 55 gal. drum

# INTERIOR DETAILER

---

This safely cleans light dirt, dust, and grime off interior vinyl, plastic, and leather surfaces (except suede). Anti-static and UV blocking agents bounce dust off and protect against sun damage while leaving behind a non-greasy, matte look — just like it came from the factory. You can also use this on door panels, dashboard, center consoles, and vents.

Interior Detailer can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Options

- 8 oz with trigger sprayer
- 16 oz with trigger sprayer
- 1 gal.
- 5 gal.
- 55 gal. drum

# WATER SPOT REMOVER

---

This is a highly effective, mild acid based cleaner, stain & water spot remover. Removes calcium, mineral & fluoride deposits on plastic, glass, and painted surfaces, plus chrome and ceramic tiles. It is also extremely effective in removing rust, brake dust, and grime.

Water Spot Remover's scent and color are not customizable.

---

## Options

- 8 oz with trigger sprayer
- 16 oz with trigger sprayer
- 1 gal.
- 5 gal.
- 55 gal. drum

# CERAMIC ABRASIVE COMPOUND

---

This is a non-diminishing, dust-free ceramic abrasive cutting and polishing compound, formulated without silicones or fillers. This compound quickly cuts through scratches, swirls, and marring and is for all paint systems, including fiberglass & gel coats. Best when used with microfiber pad.

Ceramic Compound can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Options

- 8 oz
  - 32 oz
  - 1 gal.
-

# ALL-IN-ONE CORRECTION COMPOUND

---

This is an all-in-one diminishing abrasive paint correction, enhancement, and finishing polish compound. Specially developed to remove paint defects, marring, and swirls, this works on all paint systems, clear coats, and fiberglass gel coats.

Polishing Compound can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Options

- 8 oz
  - 32 oz
  - 1 gal.
-

# SPRAY-ON CERAMIC

---

This is an easy-to-use, consumer and professional grade ceramic coating spray that can be applied with a microfiber applicator to achieve an ultra gloss coating with 1 year protection. Spray-On Ceramic can also act as a Ceramic Coating topper.

Spray-On Ceramic can be formulated in the colors below and a variety scents.

Colors by availability:

---

## Options

- 8 oz with trigger sprayer
- 16 oz with trigger sprayer
- 1 gal.
- 5 gal.
- 55 gal. drum

# ALL-PURPOSE CLEANER

---

This is an ultra-foaming, heavy-duty cleaner and degreaser that cuts through tough dirt, grime, and grease with ease. This product is perfect for cleaning any surface, while still being gentle enough for upholstery extraction and interior components.

All-Purpose Cleaner can be formulated in the colors below and a variety scents.

Colors by availability:

---

## Options

- 8 oz with trigger sprayer
- 16 oz with trigger sprayer
- 1 gal. (also available as concentrate)
- 5 gal. (concentrate only)
- 55 gal. drum (concentrate only)

# CERAMIC COATINGS

---

---

## Options

- Nano Base: 50 ml.
- Nano Pro/Top: 50 ml.
- Nano Glass: 50 ml.
- Nano HD: 50 ml.
- EZ Nano: 50 ml.
- Nano X: 50 ml.

### • Nano Base & • Nano Pro/Top (Two Layer System)

High gloss, non-solvent auto body ceramic coatings. 9H+ hardness, super hydrophobic, safe for matte surfaces.

• **Nano Glass** - Hydrophobic nano coating for glass windshields, windows and back glass, building windows, shower enclosures and mirrors.

• **HD Nano** - Heavy duty/extra adhesion formula, perfect for wheel, marine and industrial applications. Can withstand temps up to 1200°F.

• **EZ Nano** - Temperature controlled environment not needed. Offers an extended working time and creates an ultra high gloss shine with long lasting results.

• **Nano X** - Extremely chemical resistant, ultra high gloss, super-hydrophobic ceramic coating.

# MICROFIBER ACCESSORIES

---

## **Microfiber Towel**

Super Soft, 800 GSM Microfiber Towel. Perfect for cleaning, polishing, or buffing. Traps dirt without scratching and safely cleans interior and exterior surfaces. Machine washable and meant to last.

## **Microfiber Applicator**

Soft, Microfiber cloth covered foam sponges. These are the perfect applicators for ceramic coatings, applying tire shine and other related cleaning activities. They are washable and/or disposable.

---

## **Options**

- Any Quantity

## **OPTION B: BULK**

**Options B:** You purchase in bulk and bottle, label, fill your product yourself. We provide all information needed for your designer to complete your labels. Continue on to view our bulk only products for Option B.

# STRIPPING SOAP

---

This is a heavy-duty stripping soap that removes waxes, sealants, and polishing oils from surfaces. This soap is perfect for vehicles that have accumulated a heavy layer of dirt, mold, and grime. This product also cleans and prepares vehicle surfaces for ceramic coating applications.

Stripping Soap can be formulated in the colors below and a variety scents.

Colors by availability:

---

## Option

- 55 gal. drum
-

# IRON/FERROUS METAL REMOVER

---

This is an innovative brake dust, rust, and wheel cleaner that removes embedded iron particles and environmental fallout from painted surfaces and wheels. The PH balanced formula is non-acidic — allowing for safe and effective surface decontamination and cleaning. Iron Decon's scent and color are not customizable.

---

## Option

- 55 gal. drum
-

# CLAY LUBRICANT

---

This product ensures proper lubrication and gliding of a clay sponge. The clay removes stuck-on contaminants and environmental fallout while the lube prevents excessive scratching or marring.

Clay Lubricant's scent and color are not customizable.

---

## Option

- 55 gal. drum
-

# SPRAY-ON CARNAUBA WAX

---

---

## Option

- 55 gal. drum
- 

This is an easy-to-use, spray-on, wipe-off Carnauba wax detailer. Infused with special polymers, it fills in and hides tiny micro-scratches, while leaving a silky, velvety finish. Designed to enhance and maintain painted surfaces, this wax contains UV blockers to protect against the harsh sun and is safe on trim and plastic

Spray Carnauba Wax can be formulated in a wide variety of colors and scents.

Colors by availability:

# CERAMIC COATING PREP SPRAY

---

This removes paint correction/polishing compound lubricants, grease, and waxes to prepare for applying ceramic coatings, waxes, or sealants. This vital step in the ceramic coating process ensures the ceramic coating adheres to the surface. If used in between polishing steps, this can also reveal scratches, imperfections, and marring.

Wax & Grease Remover can be formulated in a wide variety of colors and scents.

Colors by availability:

---

## Option

- 55 gal. drum
-

# INTERIOR CLEANER

---

This product is a hydrogen peroxide-based disinfectant that kills bacteria, yeasts, fungi, viruses, and spores while protecting against dry-out and cracking on vinyl and plastics. Interior Cleaner's scent and color are not customizable.

---

## Option

- 55 gal. drum
-
